First Call

Satellite Conference of the
17th International Congress
on Catalysis 2020

Catalysis
for Biomass
Derived
Molecules to
Valuable Products

Puerto Vallarta, Mexico. June 11-12, 2020

Invitation

The Organizing Committee is pleased to invite students, researchers and professionals interested in the area of catalysis and related fields to the **"Catalysis for biomass derived molecules to valuable products"**, to be held on June 11-12, 2020 in Puerto Vallarta, México. This conference is a Satellite Conference of the 17th International Congress on Catalysis: Vision 2020.

Technical Program

The conference will feature state of the art research across the application of heterogeneous, homogenous and enzymatic catalysis for the conversion of biomass to valuable chemical products, as well as industrial demonstrations contributing to biorefineries development.

- Plenary lecture (60 min)
- Keynote lectures (40 min)
- Oral sessions and posters related to the topics such as:
 - ✓ Fundamental and applied catalysis on biomass conversion.
 - ✓ Molecular insights on biomass-derived molecules processing.
 - ✓ Use residual lignocellulosic biomass, algae, non-edible vegetable oils and other novel biomass raw materials.

Plenary Lectures

George W. Huber
University of Wisconsin-Madison
Matthew Neurock
University of Minnesota

chemicals.

George Willis Huber is the Richard Antoine Professor of Chemical Engineering at University of Wisconsin-Madison. His research focus is on developing new catalytic processes for the production of renewable liquid fuels and

chemicals and materials.

Matthew Neurock is focused on the development and application of computational tools that can simulate heterogeneous catalytic systems important in the sustainable production of fuels,

Venue

The Venue will be the Sheraton Baganvillas Hotel at the world famous city of Puerto Vallarta over the Mexican Pacific Coast.

Joint Conference

The Academy of Catalysis of Mexico A.C. (ACAT) and the Ibero-American Federation of Catalysis Societies (FISOCat) are pleased to invite the Scientific Community to participate in the XXVII IBERO-AMERICAN CATALYSIS CONGRESS, which will be held at the same venue on June 7-12, 2020.

<https://www.acat.org.mx/CICAT/>

Special fees will be given for participants in both Conferences.
